

2016 One Day Workshop on Analytic and Enumerative Combinatorics

April 22 (Friday), 2016

Time : 09:30-17:00

**Venue : Room 223,
Science Building I, NCTU**

Description : Analytic and Enumerative Combinatorics are two closely related subareas of Combinatorics that share many common problems but pursue different goals (asymptotic solutions in the former and exact solutions in the latter). This workshop brings together national and international experts from both fields. The main aim of the workshop is to serve as a platform for presenting recent research trends and stimulating possible future joint research collaborations.

Program :

09:30-10:00: Registration

10:00-10:10: Opening Remarks

10:10-11:00: Helmut Prodinger (Stellenbosch University)

11:10-12:00: Sen-Peng Eu (National Taiwan Normal Univ.)

12:00-14:00: Lunch Break

14:00-14:50: Hsien-Kuei Hwang (Academia Sinica)

15:00-15:50: Yeong-Nan Yeh (Academia Sinica)

15:50-16:10: Tea Break

16:10-17:00: Sara Kropf (Academia Sinica)

Organizer : Michael Fuchs (National Chiao Tung University)
